How to hodl

Product description

How to hodl is an online software service that sends email alerts to our customers when they have previously established so.

As a customer, you can receive email alerts whenever a cryptocurrency has surpassed or gone below the price of your selection.

To make sure our price data is up to date we periodically check cryptocurrency prices using the CoinMarketCap API.

Our free users can have up to 5 active email alerts, whereas our Platinum users can have any number of active email alerts.

Use and support

The service can be accessed at any time through our website: https://howtohodl.org

Online Support is available through email from 9:00 a.m - 5:00 p.m Monday to Friday. On Saturday from 9:00 a.m - 3:00 p.m. On Sundays will be available only in case of an outage or emergency. All times are in UTC -5.

For support or any questions please write to daniel@howtohodl.org

Platinum

Users can choose to get our platinum subscription by which they'll be able to send unlimited email alerts. The current price of this monthly subscription is 12 US Dollars per month. Taxes are not included in the price.

Commonly used terms

Cryptocurrency: Coin or currency that uses blockchain technology. It can also refer to a token that is available in a particular blockchain.

API: Application Programming Interface

Coin Market Cap: popular website and API service used to check cryptocurrencies' latest prices
